

REMARKS

This amendment, submitted in response to the Office Action dated August 27, 2003, is believed to be fully responsive to each point of rejection raised therein. Accordingly, favorable reconsideration on the merits is respectfully requested.

Claims 1-45 are pending in the present application. Claims 1-45 have been rejected under 35 U.S.C. § 112, second paragraph as being indefinite. Claims 1, 8, 15, 23, 31, 37 and 45 have been amended as indicated in the appendix. It is believed the claim amendments overcome the Examiner's rejection and the claims should now be in patentable form. Applicant notes that claim 43 does not have an antecedent basis issue as indicated by the Examiner.

Figures 9a, 9b, and 10a have been amended to coincide with the specification. Figures 11 and 14-24 have been identified as Prior Art. Figures 12 and 13 have been identified as Related Art.

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.
